Ultra-Small, Ultra-Broadband Conical Inductors

Broadband performance in a component the size of a 0201 chip. Piconics Inc. presents the CC10T47K240G5 & CC7T44K240G5 Conical Inductors. Exhibiting resonance free performance to 40+Ghz & 25 GHZ while biasing a load upwards of 300-500 mA. Perfect for bias tee and switching applications, One conical is capable of replacing several inductors. This means a savings in cost & real estate. Visit www.Piconics.com to view all of our inductor products.
