Piconics, Incorporated receives supplier excellence award

Tyngsboro, MA., (April. 25, 2011) – Piconics, Incorporated was recognized for its quality and performance by Raytheon Integrated Defense Systems. Piconics, Inc. received a Supplier Excellence Award at a recognition ceremony held at the Wyndham Hotel in Andover, Mass. on April 13, 2011. Raytheon recognizes its suppliers based on three important factors: on-time delivery measures, sustained performance on quality and commitment to continuous process and quality improvement.

“Our micro electronic products will provide an unprecedented level of technological capability for all the programs Piconics supports within Raytheon Integrated Defense Systems,” said Piconics, Inc. General Manager Dan Merrill. “Ultimately, our inductors will be used in platforms which are designed to protect the brave men and women of the United States Military. The importance of our role as it relates to our nations war fighter is fully understood within our organization. It is rewarding to be recognized for our performance and knowing that we play a crucial role in the protection of those who are assuring our freedoms every day” Merrill stated.

Piconics, Inc. role in the Patriot Missile program dates back to the early 1990’s where they have supported both the flight and ground platforms with microelectronic inductor products.

Piconics, Inc., with 2010 sales of \$3.2 million, is dedicated to serving its customers with high-technology components with the highest quality and fastest delivery at a fair price. Since its inception in 1963, Piconics, Inc. has provided their microelectronic products to Raytheon Company, Northrop Grumman, BAE Systems, Intel, and others, supporting the military, medical and commercial markets.

The company employs 32 people at their facility located at 26 Cummings Road in Tyngsboro, MA. U.S.A.
