Piconics Inc. Appoints New Sales Manager
For Eastern U.S & International Territories

Piconics Inc announced today that Gary Smith has joined the company as the Sales Manager for the Eastern U.S. & International Territories. Gary brings a wealth of experience within the Industry, having spent time as both a Manufacturers Representative and Sales Manager of several RF & Microwave companies. Joining with Piconics to promote high quality inductor products, Gary can continue his success.

Dan Merrill, V.P of Operations commented “We are very excited to have Gary join our team. He brings a substantial amount of experience and industry knowledge making him a key addition to Piconics. I’m confident Gary will play a key role in continuing to bring our customers exceptional products and service.”

ABOUT PICONICS, INC.

Piconics is a world-class supplier of high-quality microelectronic coil inductors for a wide variety of applications in the space, military, telecom, test & measurement and medical electronics industries. Piconics specializes in miniature MIL-Spec grade inductors along with tight tolerance, fine AWG windings such as the Broad-band Conical and Microwave Air Coil Inductors. Piconics keeps the innovative spirit alive by continuing to work with industry leaders in microelectronics to provide inductor solutions to the most challenging problems. The Engineering team at Piconics continues the philosophy of promoting and innovating high-quality microelectronic inductors for the industries’ most cutting edge applications. Piconics is an ISO 9001:2008 certified company with all manufacturing taking place in Tyngsboro, MA USA.
